A Reunion of Old Soldiers, and a God Time Generally.

Jenseyville, Ill., Aug. 15.—The Centail Illinois Soldiers' Reunion occurs in this city on the 21st inst. From 5,000 to 5,000 soldiers been made, \$1,000 having been raised in the different townships, with a great abundance of all kinds of provisions. Several farmers have given sheep and cattle, among them Colonel Fulkerson, an officer in the Confederate army, who donated one of his fine pers at excursion rates. Fifteen thousand visitors are expected.

While the occasion has no political significance, the honorable gentlemen on all the State tickets have signified their intention to be present, while been invited. The table for soldiers will be spread at the Fair Grounds, in the shade, and will be waited upon by 100 heautiful young ladies, who have voluntered their services. A maguifecent chorus of 155 fine singers are under drill by Frof. Snyder to sing old army sougo on the occasion.

mittee of Mason County.

Riddell's Defeat.

It now appears from recent returns sent out from Frankfort which may be taken as reliable that Judge Riddell is defeated by a small majority. This result was accomplished by the treachery of Thomas F. Hargis, Henry L. Stone and their little bootlickers in every county of the district. These men have been the means of overcoming a Democratic majority of more than seven thousand. Many of them were open in their opposition to Riddell, and others while professing to favor his election were secretly against him and doubtless worked to defeat him. They should be remembered hereafter, and when any one of them, who has been in any way connected with the treacherous clique who have brought defeat on the Democratic party, pops up for office, as is certain to be the case, for the creed of the gang is, that every confederate shall receive a reward in some form or other, his political head should be promptly cracked by the Democratic cudgel. The true Democratic of Mason have nothing to reproach themselves with. They gave to Judge Riddell the handsome majority of five hundred and eight, which is the third best given in the forty-one counties that compose the district. The county Democracy did all that could be expected of them, and any man who speaks desparagingly of their work is an enemy of the party and needs watching.

their work is an enemy of the party and needs watching.

The Yooman says: The official returns received from the First Apellate district, given elsewhere, are sufficient to assure the election of Colonel Holt, as the successor of Judge Hargis, to whose active efforts he may be said to be indebted in part for the result. That success sanctifies rebellion has sometimes been asserted in war, but we do not recognize the rule in politics, and we shall not yield our opinion heretofore expressed of those calling themselves Democratic who have nited with the Republicans to compass the elecatof a Democratic mominee. As against this handful of men who have proved recreant to duty, we prefer to point with honor and priet to the more than thirty thousand true Democrats who have stood manually to their posts and have shood manually to their posts and have been faithful to their duty. For them the future will bring its reward.

OFFICIAL returns from the First Appellate district have been received at the office of Secretary of State from thirty-six out of the forty-one counties in the district. The official vote in the counties heard from is as follows:

Holt's majority.

There are four of these letters that relate to the famous Little Rock and Fort Smith railread bond transaction in which Mr. Blaine's official integrity is involved. Here they are:

"My Down Mr. Fisher: I thank you for the article from Mr. Lewis. It is good in itself and will do good. He writes like a man of large intelligence and comprehension.

"Your offer to admit me to a participation in the new railroad enterprise is in every respect as generous as I could exceeply for it, and in this connection I wish to make a suggestion of a somewhat selfash character.

"You spoke of Mr. Caldwell disposing of a share of his interest to me. If he really designs to do so, I wish he would make the proposition definite, so that I haps, if he waits till the full development of the enterprise, he might grow reluctant to part with his share, and I do not by this mean any distrust of him.

Another heavy tumble in the price of flour would seem in order now. Previous to 1801 the retail price of best family flour in this market was \$3.25 to \$3.50 per barrel, it seems more than probable that prices even lower than these will be reached ere long.

Iron seems to be doomed, except as it enters into the manufacture of steel. Steel rails and steel nails have taken the place of iron, and iron mills are everywhere being transformed into steel mills. Very large works at Wheeling discharged all their iron workers and will at once change to steel. The discharge of several hundred men was the consequence.

On the subject of these letters the New York Sun pointedly remarks as follows: "It is interesting to remark that it was Blaine and Logan—out Blaine alone—who rendered to the proprietors of the Little Rock and Fort Smith railroad the Little Rock and Fort Smith railroad the Justice of the Little Rock and Fort Smith railroad the year and saw the chance. He sent his page to Logan, who promptly made the point of order suggested by the speaker. Blaine thereupon made the ruling, and the thing was done. We have not heard, however, that Blaine ever applied to Fisher and Caldwell for an interest in the road for Logan, on the ground of his services."
